

SANAKO Study 1200 Interactive Language Learning Environment

Interactive teaching software from SANAKO makes language teaching enjoyable and productive at all levels. Our breakthrough software is easy-to-use and dynamic – there is no proprietary hardware to invest in, and the system is flexible and fully scalable to meet teaching needs in large or small environments – simply install the software on as many or as few student PCs as you need, and your language teaching environment is ready! SANAKO Study 1200 is easily installed on top of existing IT resources throughout the institution, making it the ideal whole school solution for language teaching.

Additional software modules may be installed as needed to introduce specific teaching and learning activities. SANAKO Study 1200 is an advanced language learning solution that offers listening-based as well as intensive voice-based activities. The integrated digital recorder supports student voice recording for model imitation and reading practice so students can reinforce pronunciation. Study 1200 software is compatible with the Microsoft® .NET platform, and will also support the future Microsoft® Windows Vista™ technology. It is SCORM** -compatible, making it suitable for use with Learning Management Systems such as the Blackboard Learning System™.

**SCORM (Sharable Content Object Reference Model) is a collection of standards and specifications for web-based e-learning.

Prepare, Deliver, Manage

SANAKO Study 1200 Language Learning Software

Modernize traditional favorites

Teachers don't have to change the way they teach to be innovative and progressive. SANAKO Study language teaching software makes use of modern methods and resources to deliver new and traditional learning activities with maximum impact.

Use the latest technology

Because the software builds on existing ICT investments, teachers can modernize their language courses by incorporating contemporary Microsoft® Office tools such as PowerPoint® to create innovative learning activities. Moreover, the content authoring tool in Study 1200 gives teachers the flexibility to use text, images, audio and video to create stimulating new learning material.

Reinforce learning

Teachers can use communication tools that are familiar to their students, such as text messaging or chat, to communicate with them in an engaging way, and to reinforce learning by creating more opportunities to interact in the target language. Collaborative resources such as an interactive whiteboard and marker tool ensure that students get actively involved in learning.

Stay in control

New ways of learning and interacting in the classroom demand new ways of managing student activity. SANAKO's software language learning solution keeps teachers firmly at the center of learning activity with a suite of classroom management tools. Control web browsing, manage chat sessions, monitor students' on-screen work and activities, black out screens, lock cursors and keyboards to focus attention on a given task, shut down log off or restart student computers. There's no doubt who's in charge of this classroom! Class files allow teachers to save seating layout plans so lessons get started without any delays.

Teach with software that's approachable

Teachers will be perfectly confident using our teaching software, as the interfaces are user-friendly and activity-driven. This means that activities not in use cannot be accidentally selected to confuse the teacher and disrupt the lesson. No specialized IT skills are needed in the comfortable teaching and learning environment provided by our software.

ge ICT-based Teaching

SANAKO Study 1200 software's modular design

Student Main Window

Integrate with existing IT resources

The intelligent design of the software ensures that it's compatible with the latest commonly used computer operating systems, and with everyday usage tools such as Microsoft® Word, which are available in most IT environments. Users can also seek out updates online to ensure that it offers the maximum performance.

Modules and services available

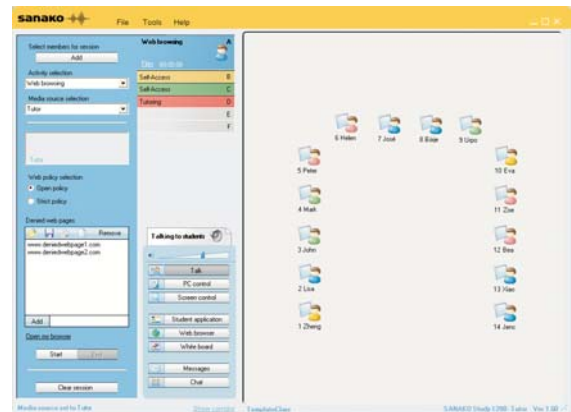

Study 1200 software can be enhanced with plug-in modules that introduce new teaching and learning activities. The software is also supported by a full range of after sales services.

Track learning progress

SANAKO Study 1200 provides teachers with a number of methods for evaluating student performance and tracking their progress. Use writing, listening, recorded and Web-based activities to stimulate learners to make use of their growing oral and written language skills, and store results for comparison over time, so the teacher and students can measure progress.

Ensure the best learning results

Study 1200 gives students access to resources for independent or supplemental learning and study. This unique learning-on-demand feature creates additional learning opportunities and reinforces classroom activity. Students can use the convenient "voice insert" tool to easily create on-the-spot voice-based exercises that help polish pronunciation, intonation and inflexion.

Your key to a whole school teaching solution

The SANAKO Study group of teaching solutions provides a reliable, user-friendly and expandable foundation for the use of IT, multimedia, the Internet and various collaboration tools in the teaching of languages and other subjects. With simple interfaces and activity-led functions, all of our teaching software can easily be used by all teachers; they're also suitable for teaching students at all levels. Study software teaching solutions can be enhanced with the addition of plug-in modules that introduce focused learning or teaching activities. All software solutions in this group are compatible with the latest Microsoft® operating systems.

SANAKO Educational Solutions

The Sanako family of educational products combines the best of technology with outstanding sound quality to answer teachers' needs in a variety of teaching environments, ranging from dedicated language teaching labs to language and cross-curricular teaching software, virtual and multimedia classrooms and classroom management tools. SANAKO Study 1200 is a modular and dynamic software language teaching solution for teacher-led and independent learning.
