**300 LAB**

# MULTIMEDIA AND LANGUAGE-LEARNING CENTER

**Welcome to a new world of student-teacher interaction in computer assisted language learning. Sanako Lab 300 makes both teaching and learning enjoyable and efficient.**

Sanako Lab 300 is a classroom and resource management system with multimedia recorder. In other words, everything you need to run a modern multimedia and language-learning center.

The information and communication manager allows you to structure, set up and run a computer classroom environment. You can easily organize and take full advantage of multimedia resources.

The digital two-track multimedia recorder has many unique features designed specifically for language learning.

The students are able to playback content while simultaneously recording their comments, responses or translations.

Created by the world leader in high-end language labs, Sanako Lab 300 is the choice of recognized and reputable universities worldwide.
